TO

Mr.Aniket Anpat

Dear Aniket Anpat,

We are pleased to allocate the following project to you as part of your internship at CYBEXONICS IT Consultants.

Project 1

Project Name: College Website

Project Description: You will be responsible for developing the frontend of the website using React.js. Your tasks will include creating a responsive and user-friendly interface that meets the project's requirements.

This project will provide you with an excellent opportunity to strengthen your skills in frontend development and gain practical experience. Should you have any queries, please reach out to your mentor or the Internship Manager.

TO

Mr.Aniket Wable

Dear Aniket Anpat,

We are pleased to allocate the following projects to you as part of your internship at CYBEXONICS IT Consultants. These projects will provide diverse exposure to both static and dynamic website development, enhancing your technical expertise.

Project 1

Project Name: Sumant Industries

Project Description: This is a static website developed using HTML, CSS, and JavaScript. Your responsibility is to ensure the website is visually appealing, functional, and responsive.

Project 2

Project Name: Gym Website

Project Description: This is a dynamic website developed using HTML, CSS, and JavaScript for the frontend, with Python (Flask) for the backend to create APIs and MongoDB as the database. Your role includes working on both the frontend and backend to deliver a fully functional application.

Project 3

Project Name: Real E-State Website

Project Description: This is a dynamic website with a React.js frontend, and Node.js with Express.js for the backend to create APIs, integrated with MongoDB as the database. You will handle both the frontend and backend development for this project.

These projects will allow you to work across multiple technologies and frameworks, providing a well-rounded development experience. Please follow the project timelines and maintain the quality of your work.

Should you have any questions, feel free to reach out to your mentor or the Internship Manager.

Wishing you all the best for these projects!

TO

Ms.Akanksha Jadhav

Dear Akanksha Jadhav,

We are pleased to allocate multiple projects to you as part of your internship at CYBEXONICS IT Consultants. These projects are designed to provide hands-on experience in frontend development, enabling you to refine your skills in various technologies and frameworks.

Below are the details of the projects assigned to you:

Project 1
Project Name: Pearls Website
Project Description: Developed the frontend for this website using HTML, CSS, and JavaScript.

Project 2
Project Name: Milestone Primary School Website
Project Description: Developed the frontend for this website using React.js.

Project 3
Project Name: Portfolio Website
Project Description: Developed the frontend for this website using React.js.

Project 4
Project Name: Hospital Website
Project Description: Developed the frontend for this website using React.js.

Project 5
Project Name: Lens Website
Project Description: Developed the frontend for this website using React.js.

We believe these projects will offer you an excellent opportunity to enhance your expertise in frontend development while contributing to the successful completion of these assignments.

Please adhere to the timelines, maintain high-quality standards in your work, and ensure proper documentation. Should you have any questions or require support, do not hesitate to contact your mentor or the Internship Manager.

We are confident that your efforts and dedication will lead to the success of these projects.

Wishing you all the best!

TO

Mr.Atharva Vanarase

Dear Atharva Vanarase,

We are pleased to allocate the following project to you as part of your internship at CYBEXONICS IT Consultants.

Project Details

Project Name: Clothing Website

Project Description: You will be focusing on both the frontend and backend integration for the Clothing Website. The development will involve working with JavaScript, Node.js, React, and APIs. Your responsibilities include ensuring seamless integration between the frontend and backend components and delivering a fully functional application.

This project will provide an excellent opportunity for you to enhance your expertise in full-stack development and gain practical experience in working with modern frameworks and technologies.

Please ensure to adhere to deadlines, maintain code quality, and document your work thoroughly. For any queries or support, feel free to reach out to your mentor or the Internship Manager.

We are confident that your skills and dedication will contribute to the success of this project.

Wishing you the very best!
